Version: 3.0 Revision date: 3rd June 2024 Date of First Issue: 3rd June 2021

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2020/878

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

> H13 Metal Powder <15 µm Product name

> > GMP H13 Not assigned

Unique Formula Identifier (UFI) Nanoform Not assigned

1.2 Relevant identified uses of the substance or mixture

and uses advised against

Identified Use(s) Additive manufacturing, hot isostatic pressing, thermal spray, metal injection

noulding, binder jetting.

Uses advised against Any other use.

1.3 Details of the supplier of the safety data sheet

> Company Identification Globus Metal Powders Ltd.

> > Materials Processing Institute, Eston Road, Middlesbrough, TS6 6US

Telephone +44(0)164 238 2000

E-mail (competent person) gmp@globusmetalpowders.com

1.4 **Emergency telephone number**

Emergency Phone No. 999 / 111 (or local emergency number)

Languages spoken English (or local language)

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

2.1.1 Regulation (EC) No. 1272/2008 (CLP) This product does not meet the criteria for classification in any hazard class

according to Regulation (EC) No 1272/2008 on classification, labelling and

packaging of substances and mixtures.

2.2 Label elements According to Regulation (EC) No. 1272/2008 (CLP)

Product name H13 <15µm

Contains: None assigned.

Hazard Pictogram(s) None assigned.

Signal Word(s) None assigned.

Hazard Statement(s) None assigned.

Precautionary Statement(s) None assigned.

Supplemental information None assigned.

2.3 Other hazards May form combustible dust concentrations in air. Handling of this material may

generate a dust which can cause mechanical irritation of the eyes, skin nose and

throat.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2 **Mixtures**

Version: 3.0 Revision date: 3rd June 2024 Date of First Issue: 3rd June 2021

No component of this mixture is included above the relevant concentration levels detailed within section 3.2.1 of SDS regulation 2015/830.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Self-protection of the first aider

Avoid breathing dust. Avoid contact with skin and eyes.

Inhalation IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a

position comfortable for breathing.

Skin contact

IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical

advice/attentic

Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing. If irritation develops and

Obtain special instructions before use. No action should be taken involving

personal risk. Use personal protective equipment as required. Wear appropriate personal protective equipment, avoid direct contact. Ensure adequate ventilation.

persists, get medical attention.

Ingestion IF SWALLOWED: Rinse mouth. Give plenty of water to drink. Do NOT induce

vomiting. Seek medical treatment. None known.

4.2 Most important symptoms and effects, both acute

and delayed

4.3 Indication of any immediate medical attention and

special treatment needed

Treat symptomatically.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

5.2 Special hazards arising from the substance or mixture

5.3 Advice for firefighters

As appropriate for surrounding fire. Use CO₂, dry chemical, or foam. Do not use water jet. Direct water jet may spread the fire.

Explosion: May form combustible dust concentrations in air. Avoid dust generation. Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Combustion products:, Carbon monoxide, Carbon dioxide. Oxides of: Manganese and Iron.

Fight fire with normal precautions from a reasonable distance. Fire fighters should wear complete protective clothing including self-contained breathing apparatus. Keep containers cool by spraying with water if exposed to fire. Avoid run off to waterways and sewers.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures Caution - spillages may be slippery. Ensure operatives are trained to minimise exposures. No action should be taken involving personal risk. Wear appropriate personal protective equipment, avoid direct contact. Avoid breathing dust. Ensure adequate ventilation. Remove contaminated clothing and wash all affected areas with plenty of water. Avoid dust generation. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.

6.2 Environmental precautions

Avoid release to the environment. Do not allow to enter drains, sewers or water

6.3 Methods and material for containment and cleaning up

Provided it is safe to do so, isolate the source of the leak. Sweep spilled substances into containers if appropriate moisten first to prevent dusting. Use non-sparking equipment when picking up flammable spill. Collect mechanically and dispose of according to Section 13. Use non-sparking tools. Ventilate the area and wash spill site after material pick-up is complete.

Version: 3.0 Revision date: 3rd June 2024 Date of First Issue: 3rd June 2021

6.4 Reference to other sections See Section: 8,13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling When using do not eat or drink. Provide adequate ventilation when using the material and follow the principles of good occupational hygiene to control personal

exposures. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not eat, drink or smoke when using this product.

Remove contaminated clothing and wash clothing before reuse.

Conditions for safe storage, including any 7.2 Keep only in original packaging. Keep in a well ventilated place. Keep container incompatibilities

closed.

Storage temperature Store in a cool/low-temperature, well-ventilated (dry) place away from heat and

ignition sources.

Keep away from acids and strong oxidising agents.

See Section: 1.2.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

7.3

8.1.1 Occupational exposure limits

Incompatible materials

Specific end use(s)

SUBSTANCE	CAS No.	LTEL (8 hr TWA ppm)	LTEL (8 hr TWA mg/m³)	STEL (ppm)	STEL (mg/m³)	Note
						UK WEL
Manganese	7439-96-5	-	0.2	=	=	Inhalable fraction
		=	0.05	=	=	Respirable fraction

Source: UK WEL: Workplace Exposure Limit (UK HSE EH40)

8.1.2 Biological limit value Not established.

8.1.3 **PNECs and DNELs** Not established.

8.2 **Exposure controls**

8.2.1 Appropriate engineering controls Provide adequate ventilation, including appropriate local extraction if dusts, fumes or vapours are likely to be evolved. Do not breathe dust. Ensure that dust-handling

systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work

area (i.e., there is no leakage from the equipment).

8.2.2 Individual protection measures, such as personal Keep good industrial hygiene. Wear appropriate personal protective equipment, protective equipment avoid direct contact. Avoid contact with skin, eyes or clothing. Do not eat, drink or

smoke at the work place. Do not breathe dust.

Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier.

Eve/ face protection

Wear eye protection with side protection (EN166). Eyewash bottles should be available.

Skin protection

Hand protection: Wear impervious gloves (EN374). Gloves should be changed regularly to avoid permeation problems. Breakthrough time of the glove material: refer to the information provided by the gloves' producer. Protective index 6, corresponding > 480 minutes of permeation time according to EN 374.

Body protection: Wear dust-resistant protective clothing.

Version: 3.0 Revision date: 3rd June 2024 Date of First Issue: 3rd June 2021

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2020/878

Respiratory protection

(i)

Not normally required. Wear suitable respiratory protective equipment if processing involves working in areas where dusts or vapours are likely to be evolved. In case of inadequate ventilation wear respiratory protection.

Recommended: EN 149:2001, FFP3S

Thermal hazards Not applicable.

8.2.3 Environmental exposure controls Avoid release to the environment.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state Fine Powder

Colour grey
Odour Odourless.
Melting point/freezing point 1427-1477 °C

Initial boiling point and boiling range No information available.

Flammability (solid, gas) Explosion: May form combustible dust concentrations in air.

Maximum explosion pressure rise (Pmax) = 4.3 bar (BS EN 14034) Coefficient of pressure rise (Kst) = 31 bar.m.s⁻¹ (BS EN 14034)

Maximum Rate of Pressure Rise (dP/dt)max = 12 bar.s-1 (BS EN 14034)

St Class =1 (BS EN 14034)

Upper/lower flammability or explosive limits

Layer ignition temperature = >400°C (BS EN 50281-2-1)

LIT Value (> 400° C), minus 75°C Safety Factor = 325 °C MIT Value (960°C), minus 1/3 Safety Factor = 860° C

Capacitive & Inductive MIE = > 1000 mJ

Flash point

Auto-ignition temperature

Decomposition temperature

PH

No information available.

Solubility(ies)

Partition coefficient: n-octanol/water

No information available.

Partition coefficient: n-octanol/water No information available. Vapour pressure No information available. Vapour density No information available.

Relative density 7.80 g/cm³ Particle characteristics <15 µm

9.2 Other information

Explosive properties May form combustible dust concentrations in air.

Oxidising properties Not oxidising.

Loss on Drying No information available.

Moisture Content 0.0 % w/w

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity Stable under normal conditions.
 10.2 Chemical stability Stable under normal conditions.

10.3 Possibility of hazardous reactions Hazardous polymerisation will not occur. May form combustible dust

concentrations in air.

10.4 Conditions to avoid None known

10.5 Incompatible materials Keep away from: acids and strong oxidising agents.

10.6 Hazardous decomposition products Combustion products:, Carbon monoxide, Carbon dioxide. Oxides of: Manganese

and Iron.

None known

None known

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity Mixture: Based upon the available data, the classification criteria are not met.

Persistence and degradability

Persistence and degradability

No data for the mixture as a whole.

12.4 Mobility in soil
 12.5 Results of PBT and vPvB assessment
 No data for the mixture as a who
 Not classified as PBT or vPvB.

12.6 Endocrine disrupting properties None known.12.7 Other adverse effects None known.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods Do not allow to enter drains, sewers or watercourses. Dispose of this material and

its container as hazardous waste. Disposal should be in accordance with local,

state or national legislation.

13.2 Additional information Avoid release to the environment.

SECTION 14: TRANSPORT INFORMATION

Not classified according to the United Nations 'Recommendations on the Transport of Dangerous Goods'.

IMDG ADR/RID IATA/ICAO 14.1 UN number or ID number None assigned. None assigned. None assigned. 14.2 **UN proper shipping name** None assigned. None assigned. None assigned. 14.3 Transport hazard class(es) None assigned. None assigned. None assigned. None assigned. 14.4 Packing group None assigned. None assigned. 14.5 **Environmental hazards** Not classified Not classified as a Not classified

Marine Pollutant.

14.6 Special precautions for user See Section: 2

14.7 Maritime transport in bulk according to IMO No information available. No information available. No information available. No information available.

Version: 3.0 Revision date: 3rd June 2024 Date of First Issue: 3rd June 2021

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2020/878

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental

regulations/legislation specific for the substance or

mixture

15.1.1 EU regulations

Authorisations and/or restrictions on use Not restricted

15.1.2 National regulations

Germany Water hazard class: 2

15.2 Chemical Safety Assessment A REACH chemical safety assessment has not been carried out. Exposure

scenarios for substances in this preparation are not available.

SECTION 16: OTHER INFORMATION

The following sections contain revisions or new statements: New SDS Regulation 2020/878 format, all sections have been updated to include new information. Please review SDS with care.
